

ANNUAL
REPORT
2022

SHARE IN OUR PASSION TO CARE

CHAIR'S MESSAGE

Dear Friends!

I am happy to report that 2022 was another productive year for the AALAS Foundation.

The AALAS Foundation's efforts are made possible by the generous donations provided by many companies, AALAS branches, and laboratory animal science professionals. Your dedicated support enables us to continue our efforts to develop new and creative ways to connect with the public and provide them with more information about the important role of animals in research and the amazing professionals working in the field of laboratory animal science.

With our contributors' help, the AALAS Foundation continues to identify new avenues, technologies, and trends that will help us in those efforts to connect with students and the general public. We received a total of seven video essay entries, representing three states, from 5th – 12th grade students in the 2022 Celebrate the Mouse Biomedical Research Video Essay Contest." The students submitted creative and educational videos-all highlighting the use of mice in medical discoveries.

The AALAS Foundation was proud to have successfully conducted its second virtual AREA Program in 2022. Over 100 high school students and teachers from across the United States attended this engaging and interactive public outreach program, sponsored in part, by Pfizer. The virtual AREA Program gave students an opportunity to learn and discuss the pros and cons of animals in research, hear about the various career opportunities in the field of laboratory animal science, play an interactive game about the process of getting a drug to market, and go on a virtual tour of Tulane's National Primate Research Center.

Additionally, we were thrilled with the number of videos received in response to our "I Love Research Animals" video essay contest! The videos helped bolster the AALAS Foundation's CARE YouTube channel's growing collection of videos which all serve to promote the important role of animals in biomedical research.

Our supporters' enthusiasm for the AALAS Foundation also enables us to continue showcasing our public outreach materials at national educational conferences and helps us spread the word about our free resource materials for teachers. We continue to maintain and enhance our www.care.aalas.org website and the www.kids4research.org website.

On behalf of the AALAS Foundation Board of Directors, I would like to thank everyone who supported the AALAS Foundation in 2022. Whether you made a financial contribution, donated or purchased an auction item, participated in one of our contests, purchased one of our "Winning the Race with Biomedical Research" t-shirts or water bottle, or volunteered at one of our events at the National Meeting, we truly appreciate your continued support!

A white, handwritten signature of Sarah Gilliam on a dark teal background. The signature is fluid and cursive, starting with a large 'S' and ending with a long horizontal flourish.

Sarah Gilliam, BS, RLATG, CMAR, ILAM
2022 Chair, AALAS Foundation

MESSAGE FROM AALAS FOUNDATION EXECUTIVE DIRECTOR

Greetings!

It's a privilege to be leading the AALAS Foundation in achieving its mission to inform the public about the important role of animals in research, and to promote the compassionate professionals working in the field of laboratory animal science.

As I read through this annual report, I'm impressed with the accomplishments made in 2022 and am excited for what the future holds as we strive together to increase public awareness about the vast career opportunities and medical progress being done in the field of biomedical research.

The AALAS Foundation was proud to have finally been able to bring back its "in-person" Silent Auction at the 2022 AALAS National Meeting and it experienced another successful record-breaking Live Auction event – thanks to all its generous auction donors and bidders!

The Foundation's "Winning the Race-Thanks to Biomedical Research" public awareness t-shirt and water bottle campaign was a huge success. The funds raised during that campaign serve to benefit the AALAS Foundation and its mission. We hope all who received a shirt and/or water bottle will wear or display them proudly and help us spread the word about the work being done in biomedical research.

The Foundation was proud to award the 4th annual Branch Public Outreach & Education (POE) Award to the Texas Branch. The Texas Branch continues to do an outstanding job developing and conducting virtual and in-person outreach activities to high school students in their area.

I would also like to thank everyone who participated in our "Racing for Research" National Meeting fundraising contest. We received a record-breaking 115 entries into the contest and, once again, the AALAS Foundation was stunned by the creative talent of all the AALAS members who participated in this fun event to benefit the Foundation and its mission.

The time and talent of our volunteers also allowed the Foundation to continue building upon the "Celebrate Animal Research & Education" public awareness initiative by honoring the people and animals working to advance research. The Foundation was pleased to celebrate the monkey in 2022 and its role in Alzheimer's disease.

The AALAS Foundation's success in 2022 was due to the generosity of the many individuals, branches and companies who help support our mission of educating the public about the compassionate professionals working in laboratory animal science – and the vital role of animals in biomedical research. Again, thank you for your time, talent, creativity, and financial support.

Finally, I would like to thank the AALAS Board of Trustees for their generous support both in volunteer time and through financial contributions. And, a huge thank you goes out to the AALAS Foundation Board of Directors for their guidance on policy and direction, hard work on virtual and in-person events, and dedication to public outreach.

We have many exciting plans for the future, some of which include increasing our public outreach efforts by conducting the newly established "Ann Turner CARE Academy" in 2023. We also plan on strengthening and enhancing our www.care.aalas.org and www.kids4research.org websites. Further development of public awareness campaigns continue that will align survivors and others who have benefited from biomedical research to embrace and become advocates of our mission.

Plans for 2023 also include finalizing and promoting our hybrid "Careers in LAS" public outreach program to better inform underserved students about the numerous career opportunities available in the field of laboratory animal science.

With your support, we can continue our efforts to educate the general public, and the next generation of leaders, about the caring professionals in our industry and the important role that animals play in research.

A handwritten signature in black ink, appearing to read "Tom Joseph".

2022 PROJECTS AND PROGRAMS

The AALAS Foundation, a 501 (c) (3) nonprofit organization, is dedicated to educational outreach on the essential role of responsible laboratory animal care and use in science to advance human and animal health. The AALAS Foundation develops educational materials, web-based public information resources and public awareness campaigns to inform the public about the compassionate professionals working in laboratory animal science and the importance of quality laboratory animal care to benefit medical progress.

CELEBRATE ANIMAL RESEARCH & EDUCATION (CARE) PUBLIC AWARENESS ADVERTISING CAMPAIGN

The AALAS Foundation continued its “grass-roots, social media public awareness efforts in 2022 by collecting additional videos to include in its “Celebrate Animal Research & Education” (CARE) YouTube channel.

The AALAS Foundation enhanced its CARE YouTube channel by adding seven (7) new videos that showcase how a variety of animal species have helped scientists achieve medical discoveries.

The AALAS Foundation announced during the 2022 National Meeting, the “Celebrate the Monkey” campaign honoring the work of monkeys (and people) for their work in Alzheimer’s disease research. Anyone making a \$5.00, or more, contribution to the Foundation at its booth during the 2022 National Meeting, received a “Celebrate the Monkey” lapel pin (a monkey with its tail curled into the shape of a purple Alzheimer’s disease awareness ribbon.)

Help us spread the word about how monkeys are helping make strides advancing Alzheimer's disease research!

Here are a few facts to share.
Monkeys are helping combat this disease because...

- they share the closest relationship with humans
- their neural anatomy and neurobiology share highly similar characteristics with those of humans
- they are critical to understanding disease
- research on rhesus monkeys laid the ground that are ongoing in humans
- recently, powerful rhesus monkey models disease were developed for assessing new

Thanks to the National Primate Research Center, a sponsor of the 2022 Celebrate the Monkey Campaign. @NPRCne

“Celebrate the Monkey!”

This “Celebrate the Monkey” pin – with its tail forming an Alzheimer's disease awareness ribbon – was designed by the AALAS Foundation to celebrate the monkey and the important role it has played in Alzheimer's disease research.

Wear this pin proudly and help us “Celebrate the Monkey” and all those who courageously work in biomedical research to help develop vaccines and cures to benefit people and animals. (See other side to read how monkeys are helping advance Alzheimer's disease research.)

Donate to the AALAS Foundation and help support its mission to promote and celebrate the people and animals working in biomedical research.

Make your online contributions at:
<https://tinyurl.com/AFCelebrate>

The AALAS Foundation was proud that the National Primate Research Centers chose to sponsor the 2022 “Celebrate the Monkey” public outreach program.

The goal of the “Celebrate Animal Research & Education” (CARE) program is to convey the message that animals play an important role in the advancement of medical discoveries to help find cures and treatment options for catastrophic diseases. The “Celebrate the Mouse,” “Celebrate the Pig”, and “Celebrate the Monkey” lapel pins were developed as visual images to help convey the message of the vital role of animals in research . They also serve as conversation starters – allowing professionals working in laboratory animal science an opportunity to talk to the public about their passion for their job and the important work they do.

“Celebrate the Monkey” cards were developed to include “talking points” describing several ways monkeys have helped Alzheimer’s disease research. These cards accompanied the “Celebrate the Monkey” pins distributed to eligible 2022 donors.

Additionally, the AALAS Foundation updated its “What’s Happening in Alzheimer’s disease” Power Point presentation to include information conveying how monkeys have contributed in Alzheimer’s disease research.

These speaker-ready, fully scripted, presentations include speaker notes to make it easy for anyone to use at outreach events when speaking to the public. The presentations are available free to AALAS members and serve as tools to assist laboratory animal science professionals in reaching out in their local communities and speaking about the important work being done in biomedical

research, and the important role of mice, pig, monkeys - and other animals - in the development of new treatment options for human and animal disease..

The “Celebrate Animal Research & Education” (CARE) program also makes it possible for AALAS members to request “Celebrate the Mouse,” “Celebrate the Pig” and “Celebrate the Monkey”, lapel pins for distribution at eligible public outreach events.

Informational cards accompany each pin and inform attendees of the significant role mice, pigs, or monkeys, have played in research.

PUBLIC AWARENESS CAMPAIGNS

The AALAS Foundation conducted a “Winning the Race – Thanks to Biomedical Research” t-shirt and water bottle public awareness campaign which ran from July through August, 2022.

The goal of the campaign was to bring awareness to the public about all of the medical advances being made thanks to the efforts of professionals and animals working in the field of laboratory animal science.

AALAS members were encouraged to order and wear a t-shirt, or a water bottle, with the “Winning the Race – Thanks to Biomedical Research” logo, as a way to help generate conversation and promote the important work of people and animals working in biomedical research. This campaign raised a total of \$2,580 to help support the AALAS Foundation and its mission.

BRANCH RECOGNITION FOR PUBLIC OUTREACH

The AALAS Foundation’s annual Public Outreach & Education (POE Award) recognizes outstanding public outreach efforts conducted by Branches. The Texas Branch was named recipient of the 4TH annual POE Award because of its many public outreach efforts conducted by several of its members.

OUTREACH AT EDUCATIONAL CONFERENCES

AALAS staff exhibited at the 2022 “in-person” National Science Teachers Association conference in Houston, Texas. Houston area laboratory animal science professionals, Lindsay Holmes, Kelly Gale, Keely McGrew, Nicole Kenner, Krystal Garrow, Lenore Wilbert and Sheri Brodi volunteered at the booth and helped inform teachers about the AALAS Foundation’s free educational resources available to assist them educating their students about the important role of animals in research and the vast array of career opportunities available in biomedical research.

Over 3,500 science teachers from around the country attended this event.

“ANIMAL FLASH FACTS” – EDUCATIONAL RESOURCE

The AALAS Foundation continued offering its educational public outreach tool for free to teachers/students – the “Animal Flash Facts” research trivia game. The “Animal Flash Facts” game challenges students to guess the correct animal model which helped scientists lead to medical discoveries. The game also consists of trading cards which contain photos of animal models and facts about how the animal model helped with scientific discoveries, in addition to “fun facts” about the animal.

The “Animal Flash Facts” research trivia game is available free in PDF format for AALAS members.

KIDS 4 RESEARCH WEBSITE

Funded by Charles River Laboratories, the www.kids4research.org site was developed to provide age-appropriate material to stimulate interest and understanding about our field. The website continues to serve as an important educational outreach tool for middle school age students and teachers – receiving an average of 5,000 website visits per month.

FREE OUTREACH RESOURCES

With the generous support of our donors, the AALAS Foundation continues to offer complimentary shipping on all orders comprised exclusively of AALAS Foundation’s free public outreach materials.

The AALAS Foundation has a free “Tips & Guidelines” to help plan virtual outreach events and offers a free sample virtual outreach Power Point presentation to assist with outreach activities in local communities. The free guidelines and sample virtual presentation may be obtained upon request. Email foundation@aalas.org for details.

BRANCH AREA PROGRAM FUNDING

The AALAS Foundation offers complimentary Animal Research Education and Awareness (AREA) Program resources to branches and districts interested in conducting the AREA program in their communities during their meetings.

AREA Program resources include a step-by-step event guide and free Foundation outreach materials.

2022 VIRTUAL AREA PROGRAM

The AALAS Foundation conducted its second virtual Animal Research Education & Awareness (AREA) Program in September 2022. Over 100 students from across the USA, along with their teachers, attended this educational and interactive program.

Students participating in the program were introduced to the various career opportunities available in biomedical research and participated in a facilitated discussion lead by AALAS member and Pfizer employee, Dr. Mikele Simkins about the pros and cons of animals in research.

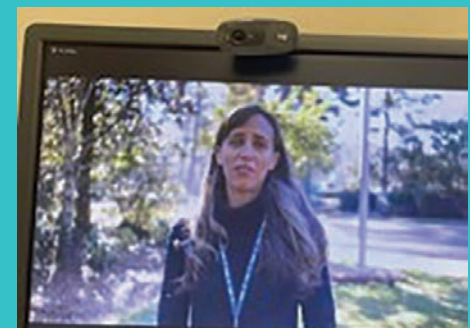

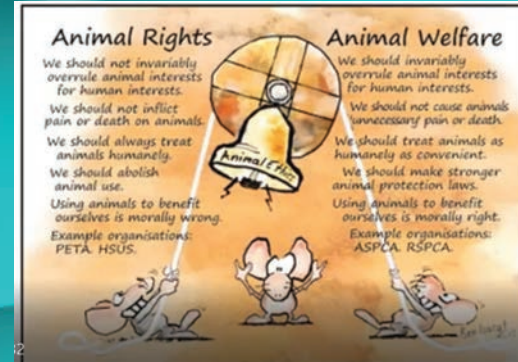

Additionally, Pfizer employee, Melissa Dragon, conducted an interactive educational game, “The Long Road to Drug Discovery”, developed by Pfizer, where the students learned the process involved in developing and bringing medicines and vaccines to market for humans and animals.

AALAS Foundation BOT member, Amy Pierce, presented the students with a virtual tour of the Tulane National Primate Research Center.

AALAS Foundation Board Chair, Sarah Gilliam, was the program moderator.

Survey results from students and teachers attending the program indicate the virtual AREA Program was a success and that it provided students with a better understanding and acceptance for the need of animals in research.

Thanks to Pfizer, Inc. for its sponsorship of this important educational program.

2022 NATIONAL MEETING – A SUCCESSFUL YEAR FOR AALAS FOUNDATION

The AALAS Foundation held its in-person silent auction during the 2022 AALAS National Meeting and generated \$5,750.00 to support the AALAS Foundation's public outreach effort. We appreciate all auction item donors and bidders who supported our virtual silent auction.

The AALAS Foundation held its Appreciation Reception and Live Auction at the AALAS National Meeting in Louisville, Kentucky, thanks to the following sponsors and supporters:

\$5,000 Sponsors

Priority One Services
The Jackson Laboratory
Transnetyx

\$2,500 Sponsors

Lomir Biomedical, Inc.

\$1,000 Supporters

Ancare
Animal Care Systems
BetterBuilt
Inotiv

The 2022 Appreciation Reception & Live Auction raised a record-breaking \$23,489.55 to benefit the AALAS Foundation and its mission.

The AALAS Foundation conducted the “Racing for Research” contest during the 2022 National Meeting. A total of 115 individuals, companies, institutions and branches registered to compete in the contest – a record breaking number of entrants!

Each contestant was challenged to creatively decorate an 11” wooden horse. There were four contest categories –

individual, corporate/company, branch, and institution/association. The entries were displayed on the AALAS Foundation’s “Racing for Research” Facebook photo gallery page and received online “votes” to determine the winning category entries. “Votes” were donations made to the AALAS Foundation on behalf of an entry. In addition to category winners, “Fan Favorite” and “Best of Show” awards were presented.

First Place Category winners, whose entries raised the most donations to benefit the AALAS Foundation:

- Individual – Dianna Laurent
- Branch – Research Triangle Branch – Artists: RTB Executive Committee
- Corporate – BMS RWC -Vet Sciences – Artists: Deborah Calantropioi-Covington, Lindsay Bates, Angelica Cabrera, James Champion, Michael-Ann Sowick, Kelly Walton, and Holli Zampano
- Institution/Organization – Emory National Primate Research Center – Artist: Elyse McClosky

The Central Ohio Branch’s entry, artist Carla Waddell, received the most Facebook “likes” on the AALAS Foundation’s Facebook page, entitling it to receive the “Fan Favorite” award.

The “Best of Show” was awarded to Central Ohio Branch for its entry – artist, Carla Waddell.

We thank all those who made a contribution to the AALAS Foundation and participated in the Silent Auction, the Appreciation Reception & Live Auction, and the “Racing for Research” contest during the AALAS 2022 National Meeting.

CONGRATS TO OUR "RACING FOR RESEARCH" CONTEST WINNERS

CELEBRATE ANIMAL RESEARCH & EDUCATION (CARE) SESSION

The AALAS Foundation was proud to present its “Celebrate Animal Research & Education” (CARE) Session at the 2022 National Meeting.

Panelists for this session included AALAS Foundation Board of Director Chair, Sarah Gilliam, AALAS Foundation Board of Director, Larry Shelton, former AALAS Foundation Board of Director, Patricia Sikes, and AALAS Foundation Executive Director, Ann Turner.

Panelists informed the attendees of this interactive session about the AALAS Foundation’s free public outreach resources available and offered attendees tips to help with their public outreach efforts.

AALAS FOUNDATION BIDS FAREWELL TO RETIRING EXECUTIVE DIRECTOR

The AALAS Foundation recognized, and wished a happy retirement to long-time Executive Director, Dr. Ann Turner, during its Appreciation Reception at the 2022 AALAS National Meeting.

AALAS Foundation Board Chair, Sarah Gilliam, and AALAS Foundation Board member and National Meeting Committee Chair, Molly Romick, presented Dr. Turner gifts in appreciation of her 20+ years of dedicated service to the AALAS Foundation.

2022 CELEBRATE THE MOUSE BIOMEDICAL RESEARCH VIDEO ESSAY CONTEST FOR STUDENTS

The AALAS Foundation announced its sixth annual “Celebrate the Mouse Biomedical Research Video Essay” contest for students in August 2022. The contest encouraged 5th through 12th grade students across the United States to creatively produce a video essay to explain how mice in research have helped the lives of people and/or animals.

The 1st and 2nd place winners, in addition to the YouTube “Fan Favorite” winner will be announced and awarded cash prizes, trophies and certificates, in 2023.

The 2021 Celebrate the Mouse Biomedical Research Video Essay contest winners were announced and presented their prizes in 2022.

AALAS Foundation Board of Director, Molly Romick, and AALAS Incoming Vice President, Pamela Straeter, made prize presentations to the winning students.

Below are the winners of the 2022 Celebrate the Mouse Biomedical Research Video Essay contest:

9th-12th Grade Category Winners

1st Place – Owen Hornung, Westminster, Maryland - \$500 cash prize

2nd Place – May Gao, Pfafftown, NC - \$250 cash prize

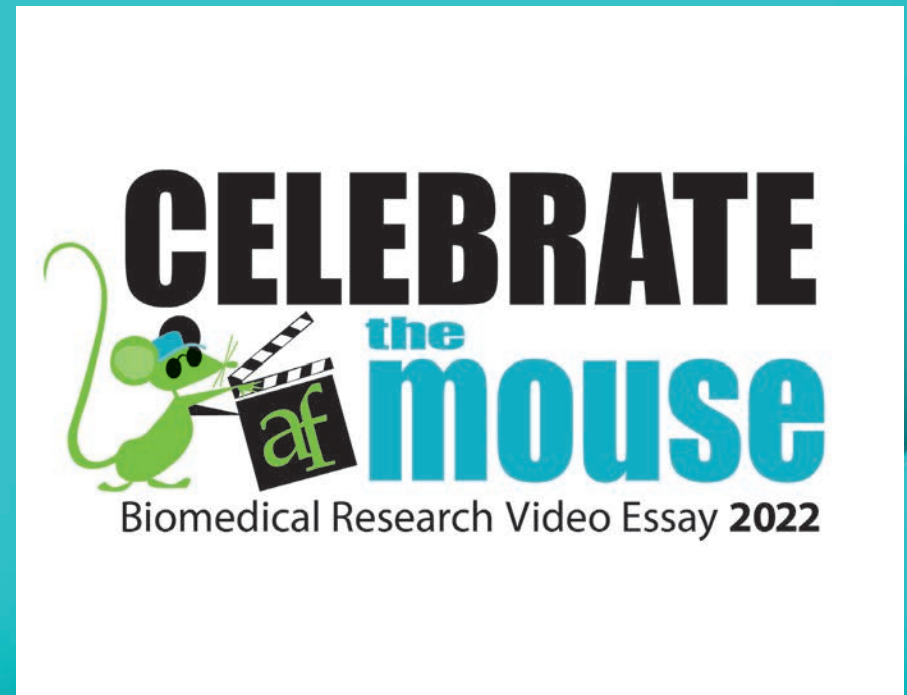

3rd Place - Victoria Sabanao, Pfafftown, NC - \$100 cash prize

Fan Favorite Award – May Gao, Pfafftown, NC - \$100 cash prize

5th – 8th Grade Category Winners

1st Place – Lilly Walls, Lewisville, NC - \$500 cash prize

Fan Favorite Award – Lily Walls, Lewisville, NC - \$100 cash prize

COMING SOON!

AALAS Foundation Board members, volunteers and staff are working to implement the following projects in 2023:

Development of New Hybrid “Careers in LAS” Public Outreach Program

The AALAS Foundation is working with Pfizer, Inc., to develop a hybrid “Careers in LAS” public outreach program. This new program, featuring videos of a wide variety of diverse professionals within the LAS field and virtual tours of research facilities, will focus on reaching out to underserved students with the goal of creating awareness about the vast array of career opportunities available in the field of laboratory animal science.

Public Outreach Training Academy

The AALAS Foundation is planning to launch its “CARE Public Outreach Training Academy” in 2023. This free training program will be offered to AALAS members interested in learning how to improve their public speaking skills and make use of the AALAS Foundation’s free public outreach materials.

Public Outreach Tools

The AALAS Foundation is continuing to make use of print, digital and social media platforms in order to broaden its ability to educate the public about the compassionate professionals working in the field of laboratory animal science and the importance of quality laboratory animal. Look for the AALAS Foundation to continue making use of social media, such as Facebook, Twitter, Instagram, YouTube, and LinkedIn, to expand its public outreach efforts.

The AALAS Foundation is continuing to develop the “Celebrate Animal Research & Education” program and plans for 2023 include the development of additional presentation tools which AALAS members may use for conducting virtual and in person public speaking outreach events in their local communities.

Kids for Research Website

The AALAS Foundation plans to redesign the www.kids4research.org website.

7th Annual National Biomedical Research Video Essay Contest for Students

The AALAS Foundation plans to conduct its 7th Annual Celebrate the Mouse Biomedical Research Video Essay contest for middle and high school age students.

2022 AALAS FOUNDATION FINANCIAL STATEMENT

Current Assets

Cash and cash equivalents	\$120,633
Pledges receivable, current portion	17,000
Investments, at fair value	72,632

GIVING TO THE FOUNDATION

Show your dedication to your profession by volunteering your time or making a donation to the AALAS Foundation. Here are some of the ways you can help advance laboratory animal science:

VOLUNTEER YOUR TIME

- Conduct an in person or virtual public outreach program in your community
- Serve on the Foundation Board of Directors
- Participate in career day at your local school
- Share your passion with AREA Program students.
- Serve on the National Meeting Committee, Branch Relations, Technology, Public Relations or Special Projects committee.
- Volunteer at Foundation activities at AALAS National Meetings

PARTICIPATE IN THE AALAS FOUNDATION AUCTION

- Donate an item or participate in the AALAS Foundation Silent and Live Auction

MAKE A DONATION

- Make a monetary donation.
- Donate in honor or memorial of a loved one, co-worker, companion animal, or research animal.
- Join the “Partners in Sharing” Monthly Giving Program.
- Make a planned gift of stock or life insurance.
- Remember the AALAS Foundation in your estate planning.
- Give through the United Way (reference #060730).
- Encourage your employer or branch to give to the AALAS Foundation.
- Participate in employee matching fund programs.

2022 AALAS FOUNDATION CONTRIBUTORS | 2022 CORPORATE CONTRIBUTORS (1/1/2022 - 12/31/2022)

The AALAS Foundation wishes to thank these corporate contributors who have made possible many projects in education and public outreach that would otherwise have not been funded. We thank these contributors for sharing our vision. This list includes Foundation auction donors.
